Homework 6
PHP Server-Side Script Testing for XAMPP Server
(Individual Assignment)

Hw 6 Assigned on 2015/10/7, Due 2015/10/19

Hand-In Requirement

- Prepare a Testing Report using Microsoft PowerPoint (name it as **Hw6-WebSys-YourName.pptx**)
- Due **October 19, 2015** as an email attachment

Statement of Assignment Activities:

As an IT staff working for the Web System development, you were asked by your supervisor to test the two PHP testing projects that uses XAMPP server, and PHP script:

- Project 1. Book Rep Customer Relations Management, page 359 (text book)
- Project 2. Art Store, pp. 359-361 (text book)

Then you will make a presentation to other staff as a demonstration.

Your supervisor really want all the detail info of your *testing procedure and results* being documented, and be able to pass the info to other less experienced staff as a training tool. And your supervisor also make a note saying that pictures and diagrams will be helpful and should be included in your PPT slide.

Submit your PPT Slide

- The presentation time should be about 20 minutes, and total pages of slide should be in the range of 20 to 30 slides.
