ITC 250/CPET 499 Web Systems
Fall 2014
Homework Assignment 6
Final Project Proposal

Assigned Date: Oct. 3, 2014
Due Date: Oct. 10, 2014 before 5:00 PM (as email attachment)
Guide line: Students are expected to form a team of two or just yourself to prepare the project proposal.

1. The team is expected to prepare a proposal for the final project for the Web Systems course.
2. The project proposal should consist of the following sections:
    - Project Title
    - Objective/Purpose of the Project
    - Project Summary
        - Scope
        - Computer systems
        - IT and networking Infrastructure
        - Software Tools
    - Expected Deliverables
    - Estimated Cost (time and cost)
        - Each team should call or visit at least 3 local ISPs (Internet service provider, such as Comcast, Frontier, and others) to obtain information on their Internet services. Then prepare a brief summary report, and a Summary Table that highlighting the following: Features, Benefits, and Cost, which one is the fastest? What if any, are the downsides (implications) of selecting any of the three for Internet service (such as additional equipment purchases).

Hand-in requirement and Due Date:
- **Each team** should submit a final project proposal (minimum 2 pages, single spaces), **Oct. 10, before 5:00 PM**
